

# I have a dream

I have a dream, a song to sing  
to help me cope with anything.  
If you see the wonder of a godly tale  
you can take the presence even if in jail.

I believe in Jesus  
something good in everything I see.  
I believe in Jesus  
and I know the time is right for me.  
I'll cross the stream  
I have a dream.

I have a dream, a fantasy  
to help me through reality.  
And my destination makes it worth the while  
pushing through the darkness still another mile

I believe in Jesus  
something good in everything I see.  
I believe in Jesus  
and I know the time is right for me.  
I'll cross the stream  
I have a dream.

I have a dream, a song to sing  
to help me cope with anything.  
If you see the wonder of a godly tale  
you can take the presence even if in jail.

I believe in Jesus  
something good in everything I see.  
I believe in Jesus  
and I know the time is right for me.  
I'll cross the stream  
I have a dream.
